

Model ST Soft-Touch Hand Control with Dual Massage

Our Model ST soft-touch hand control incorporates the latest, feather-touch design technology to make every command effortless.

The quality of our Model ST is world class. The comprehensive limited warranty covers the all steel frame for 25 years, the mattress and foundation for 20 years and the ultra smooth lift motions for 15 years.

*Our Model ST allows you to individually elevate your back and your legs to exactly the position you desire; You have **OVER 1001 POSITIONS** at a simple, soft-touch of your finger.*

We have added a built-in timer that will automatically turn off both massagers in 30 minutes.

Our massage system includes two of the highest quality, circular-motion massagers: One for your back and one for your legs. Each massager has two speeds.

*And when you smoothly and effortlessly adjust your back and legs to exactly the position you desire; and turn on your massagers for the back and legs to ease your tension; and feel the comfort and support of your mattress... You are going to wonder why you waited so long to **PAMPER YOURSELF!***
